INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/EP 03/14176

I. Basis	of the	report
----------	--------	--------

1. With regard to the **elements** of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	Des	scription, Pages	;				
	1-1	1	as originally filed				
	Cla	ims, Numbers					
	Cia	iiiis, italiibeis					
	1-7		as originally filed				
	Dra	wings, Sheets					
	1/1	,	as originally filed				
2.	With regard to the language , all the elements marked above were available or furnished to this Authority in language in which the international application was filed, unless otherwise indicated under this item.						
	ailable or furnished to this Authority in the following language: , which is:						
		• •	anslation furnished for the purposes of the international search (under Rule 23.1(b)).				
\square the language of publication of the international application (under Rule 48.3(b)).							
		the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).					
3.	Wit inte	With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the nternational preliminary examination was carried out on the basis of the sequence listing:					
		contained in the inte	rnational application in written form.				
		☐ filed together with the international application in computer readable form.					
		☐ furnished subsequently to this Authority in written form.					
	☐ furnished subsequently to this Authority in computer readable form.						
		The statement that the subsequently furnished written sequence listing does not go beyond the dis in the international application as filed has been furnished.					
	☐ The statement that the information recorded in computer readable form is identical to the written listing has been furnished.						
4.	The	e amendments have r	resulted in the cancellation of:				
		the description,	pages:				
		the claims,	Nos.:				
		the drawings,	sheets:

INTERNATIONAL PRELIMINARY **EXAMINATION REPORT - SEPARATE SHEET**

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Reference is made to the following documents:

D1: US-A-3 163 397 (JOHANNES GASSMANN ET AL) 29 December 1964

D2: US-A-2 958 505 (FRANK ROBERT G) 1 November 1960

- 2. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claims 1 and 3 is not new in the sense of Article 33(2) PCT.
- 2.1 The document D1 discloses (the references in parentheses applying to this document):

A manufacturing method for obtaining high-temperature components (1) for gas turbines (col. 1, I. 13-22), which comprises at least incorporation of an element (2) in a main body (3) of said component (1), said element (2) having mechanical properties able to withstand stresses to which said component is subject in a zone where the said element is arranged (col. 2, l. 38-40).

- 2.2 Also document D2 discloses the manufacturing method according to claim 1.
- 2.3 The subject-matter of claim 1 is therefore not new.
- 2.4 Furthermore, document D2 discloses (the references in parentheses applying to this document):

A high-temperature component for gas turbines, which is obtained by incorporating at least one insert (16) in a main body (12) of said component, said insert (16) haveing mechanical properties ablo to withstand stresses to which said component is subject in a zone where said insert is arranged (col. 2, l. 5-10).

- 2.5 Also D1 discloses a high-temperature component according to claim 3.
- 2.6 The subject-matter of claim 3 is therefore not new.

International application No. PCT/EP 03/14176

EXAMINATION REPORT - SEPARATE SHEET

INTERNATIONAL PRELIMINARY EXAMINATION REPORT - SEPARATE SHEET

International application No. PCT/EP 03/14176

- 3. Dependent claims 2 and 4-7 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty, since all the additional features are known from D1 and D2, see e.g.:
- claim 2: D1, col. 2 l. 71 col. 3 l. 2____
 - claim 4: D1, figure 3
 - claims 5 and 6: D2, figure 2
 - —- elaim-7: D2, col.-2, l.-5-8—
